2. Firstly, the stud fee for the stallion used must be paid once. This includes the production of an embryo. Each additional embryo produced (from the 2nd) is then charged separately at the time of production with an additional 50% of the stud fee per embryo and must be paid prior to collection, dispatch or transplantation of the respective embryos.
3. The customer agrees that PS is entitled to receive information and results regarding the inseminations or ICSI performed and the embryos, directly from your veterinarian from VetEmbryo. This consent refers in particular to information on the number of embryos.
3. If the mare does not become pregnant with the semen, irrespective of the cause, the customer has the possibility of repeating the ICSI session with the specified mare and stallion up to a maximum of 3 times. Alternatively, the customer can receive fresh semen from the stallion agreed in the contract for the specified mare without incurring any further stud fee costs. Furthermore, in the event of non-pregnancy, no further claims against PS can be made.
4. PS will issue covering certificates for births that are the result of the corresponding use of the semen and pass them on to the respective breeding association. However, this will only be the case if the semen has been used in accordance with these terms and conditions and the stud fee and all other costs incurred by PS have been settled and paid.
5. If the customer violates any provision of these Terms and conditions, PS will impose a contractual penalty of €2,500.
